

POST DISPATCH WOULD DEFEAT DEMOCRATS WHO PREVENTED UNJUST INCREASE OF TAXES ON FARM LANDS AND TOWN LOTS.

JOHN L. SULLIVAN  
Secretary of State.

The Armstrong Herald (Howard County), of Sept. 16, 1920 editorially says:

"Now wouldn't it be a sane proposition for the farmers of Missouri to vote against Hon. John L. Sullivan, the Democratic candidate for Secretary of State, and George Middelkamp, the candidate for state auditor, simply because these two men stood four square as members of the State Board of Equalization and voted to protect the farmers' interest of the state by refusing to permit the doubling and trebling of farm values in the state? Even if the St. Louis Post Dispatch has singled out these two men and demands their defeat at the November election for protecting the interests of the farmers of Missouri, it is no reason why they should be defeated, but is the best reason in the world why the farmers of Missouri regardless of politics should vote to elect these two men to office. The Post Dispatch stands for the corporate interests of St. Louis and wants the tax burdens of the corporations and the money lenders lowered and the taxes of the farmers raised; and George Middelkamp and John L. Sullivan stand for the protection of the farmers against this outrage. Mr. Farmer, if you know right from wrong, if you know how to protect yourself, you will not only vote to elect these two men in November, but will see to it that every one of your neighbors goes to the polls in November and votes; and right here let us say that this one good reason why every woman who lives in the small towns and on the farms in this state should go to the polls and vote. You good women of the rural districts don't want farm taxes increased; you don't want the taxes on the small town homes increased; and that is what the Post Dispatch wants; and that is the reason it is demanding the defeat of Middelkamp and Sullivan. It is up to the good women out in the big Democratic counties of Missouri to show to the Post Dispatch that they have sense enough to protect the interests of the farm owners and the small town home owners of this state."

## COUNTRY CLUB FOR MEXICO IS ORGANIZED

The Mexico Country Club was organized at a meeting Friday evening in the Red Cross Community Room with R. R. Arnold president, Wallace Fry, vice-president; L. B. Hawthorne, secretary and Sam Sharp treasurer.

The membership has been limited to one hundred of which 75 have already been enrolled. Applications for memberships should be filed with the secretary. The initiation fee is \$100 and the dues \$50 a year.

The club has leased 60 acres of land on the Lawder farm, adjoining East Lake, on the North State highway. They have an option to buy the land at the end of five years if they care to.

A club house will be erected early in the spring and the ground ready for playing as soon as the weather permits next year. No hazards or traps will be built on the course for several years as the land, as it is, will be sporty enough for beginners.

The board elected at the meeting was as follows: H. B. Brett, Earl Brown, Mitchell White, F. W. Pilcher and W. Corl. The constitution and bylaws of the club are modeled after those of the U. S. Golf Association, and which are used by all Country Clubs.

Committees were appointed Saturday to complete the various arrangements necessary to see everything in readiness for the club to be in use early in the spring.

## ROBS FLIVVER

"A Ford is all right," says Ed C. Offutt, but when the cushions, tires, coils and chains are gone, what is left doesn't amount to much, if you happen to want to take a ride."

Some kind person, Thursday night, deprived Mr. Offutt's Ford of its cushions, a new tire, two new tubes, the new chains, and the coils. Mr. Offutt was coming home that night, and about six miles from Mexico on the Fulton road, his flivver refused to "fly" anymore, so he left it by the roadside, expecting to get it the next morning. And he did—what was left. Mr. Offutt says he can't see why the rest of the car was not taken, and thus save him the expense of having it brought to town.

## TO HAVE CONTRI- BUTION BOX FOR PASSING TOURISTS

The idea started by Herbert McDougal, general manager of the Pershingway of country schools having a box in front of the school for contributions from tourists, will be taken up in the Audrain County rural schools, according to Ed C. Offutt, county superintendent of schools. Mr. McDougal thought of this plan when camping in front of the Dooley School in Audrain County this summer.

According to Mr. McDougal's plan, a strong box can be made with a good lock and with a slit in it large enough to allow the slipping in of a dollar. The money can be used for the school's library or for other equipment.

A little firewood for the camper's convenience could be kept by the school.

The Dooley school is near the route for the Pershingway, and the school yard can be made into a Pershingway Park.

The idea is that tourists are going to camp from now on in school yards anyway, and almost all of them are willing to pay for the privilege. The plan of Mr. Offutt is to have the boys and girls during the winter make posters and signs to be put up and down the road with "Tourists Park at Our School House," with the number of miles to the school house and the direction there. Also signs like "Tourists, Don't Forget Our Library Fund". School houses may be kept locked as usual as tourists will not wish to get inside. This will lessen the number of hobos breaking the windows to get inside and enah, the farmers living near the school to sell at good prices eggs, butter milk and other farm produce. This will also enable the boys and girls of the school district to associate with well educated people who will be glad to tell them of the outside world.
